

Who says that all weddings have to be in the evening? Brunch weddings are absolutely gorgeous, and just because the reception is not at night doesn't mean you can't have fun! From festive to formal, brunch receptions are full of options. Here are some tips to make sure your brunch wedding is a hit!

- Mimosas, Bloody Mary's, and Mint Juleps are perfect for cocktails during the day.
- For non-alcoholic drinks, have fruit smoothies or a variety of flavored lemonades.
- Get creative with desserts! From donuts to strawberry short cake, your options are endless.
- Speciality food stations are a hit. Have the chef make personalized omelets or french toast right in front of your guests.
