

Many couples can often easily incorporate something old, something new and something borrowed, but the “something blue” can be a little tricky. Here are some ideas for those of you who want a creative way to add just a hint of blue into your day.

- Custom handkerchief stitched with blue thread are the perfect personalized piece for your special day.
- Jeweled hair clips give just the right amount of beauty to any bride. These are especially special if it is a family heirloom.
- Instead of the standard French manicure, opt for a shade of blue on your nails.
- Sapphire or topaz jewelry are perfect pop of blue.
